Important to Remember:

- ❖ Be there to greet your shearer & assist when needed.
- ❖ Do not expect the shearer to shear your sheep when you are not there!
- ❖ Keep your sheep dry- if it rains the day or two before your shearing date, lock them in the barn to keep them dry.
- ❖ On shearing day, have your sheep confined in a barn or small area that is easily accessible. Be time efficient!
- ❖ Have a clean, dry, open area for your shearer to work in.
- ❖ Assist your shearer in moving your animal from the pen to the mat.

Recipient of the R.I. Sheep Cooperative Memorial Scholarship 2017

Congratulations to Faith Belleavoine of Chepachet, Rhode Island, on winning the 2017 RISC \$1000.00 Memorial Scholarship. Faith was a member of the Aries 4-H Club and started her sheep project when she was 9 years old. Faith chose the Colored Lincoln as her breed of choice. In her application she reported how she learned so much about the health, safety and responsibility of raising animals. Faith also stated how going to sheep shows and being a member of the 4-H Club helped her to overcome her shyness and now in college is comfortable being called on in class and giving presentations. Faith is still active in the Rhode Island Sheep Cooperative and says she looks forward to bagging wool at Wool Collection Day, something she has done since she joined 4-H and the Cooperative. This year Faith also met customers to pick up the blankets in December so all had them in time for Christmas. Faith was a life guard in high school, and has gone on to be a member of the winning swim team at the University of New England in Maine, where she majors in Medical Biology. Congratulations, Faith! Keep up the good work!

RHODY WARM BLANKETS

The Rhody Warm Blanket project was once again a success this year. Although we had the smallest amount of wool collected, we still have blankets available- get your while they last!!

This year's pattern, a striped blanket, is called the "*Slatersville*" edition. It's a very different pattern from years past, but has been very well received by our customers and farmers as well. If you are interested in getting one, we still have most sizes available. Please contact Robin or Polly for more details. (We will be happy to bring your order to the annual meeting).

Plans are in the works for the next blanket, collection day will be held either the first or second weekend in June. As you probably know we coordinate our shipping with the Connecticut Sheep Breeders and Worcester County Sheep breeders groups, & all plans have not been finalized at this point. Keep checking our website (calendar page) for the official date and place for the collecting of wool. In the meantime, call your shearer now and book a date for shearing (please note local shears listed on previous pages). Get your sheep sheared before June so that your wool will be ready.

Should you have questions about the Cooperative's blanket project or how you can participate or your fleeces/wool in general- please contact Polly or Robin for more information!
